Effective Date: 08/21/2015
Revised Date: 11/13/2023

Frontier Wavelength – Establish REQ TYP ED, ACT N

Product Description

This service will be a point-to-point wavelength product and purchased to support the need for managed optical transport across our shared optical network. This product will dedicate one wavelength for each point-to-point circuit and can be used to connect a Customer designated premise to a Customer Point of Presence (POP) or to interconnect POP locations.

Order Submission Eligibility

Prior to submitting a Frontier Wavelength order, a valid Frontier Wavelength Contract must be obtained from your Frontier Sales Team. If you are unaware of your assigned dedicated Sales Team, you may email Wholesale_Inquiry@ftr.com

Once a Frontier Wavelength Contract is obtained, validate the Wavelength speed is within your Wavelength Contract.

To Verify Eligibility:

- a. Determine the Serving Wire Center (SWC) for both the A and Z locations. If needed, determine the SWC's at the following link: <https://wholesale.frontier.com/-/media/WholesaleDocs/asr-pre-order-location-inquiry-switched-ethernet-only-job-aid.ashx>
- b. Access the **Ethernet-Enabled SWC List** located <https://wholesale.frontier.com/-/media/WholesaleDocs/Ethernet-Enabled-SWC-List.ashx>. Filter on the SWC column
- c. Find the column labeled "10G & 100G Wavelength" and verify the column contains a "Y".

An order ***is*** eligible for order submission when:

- The SWC for both the A & Z locations contain a "Y" in the "10G & 100G Wavelength" column and are within the same Lata.

An order ***is not*** eligible for order submission when:

- The SWC for either the A or Z location is not found on the Ethernet-Enabled SWC List.
- Either the A or Z SWC location does not contain a "Y" in the "10G & 100G Wavelength" column.
- The SWC for both the A & Z locations contain a "Y" in the "10G & 100G Wavelength" column and are ***not*** within the same Lata.

For orders not eligible, please contact your assigned dedicated Sales Team to obtain a request for pricing.

Frontier Wavelength – Establish REQ TYP ED, ACT N

ASR Fields used for validating PONs

Field	Description/Value
VTA	12, 24, 36, 60, 84, or 120
SPEC Code	VELTEN
PNUM	POS 1-3 'VEL' or 'FOT' followed by Contract Number or ICB Number
FORMS	Enduser

ASR Example

Frontier Wavelength REQ TYP ED, ACT = N

➤ VFO TYPE: EUSA-2 Point

**New Connect to establish Frontier Wavelength Point to Point
Enduser to Enduser**

Administrative Form

Key ASR Field	Value
DDD	Negotiated (Submit with minimum 18 day interval) Best Date will be returned on FOC
REQ TYP	ED
ACT	N
QSA	02
EXP	Populate only if Expedite is being requested
RTR	S, F or N
PIU	100

Frontier Wavelength – Establish REQ TYP ED, ACT N

QTY	1
BAN	E, N or Valid CABS BAN
SPEC	VELTEN
ASC-EC	Required if more than one LEC is involved on NECA Route

Bill Form

ACNA	Identifies the COMMON LANGUAGE IAC code for the customer who should receive the bill for the ordered service
FUSF	Federal Universal Service Fee (FUSF). 1 alpha character Valid Values: E = Exempt Federal Universal Service Fee, N = Non-Exempt (Assessed) Federal Universal Service Fee
VTA	12, 24, 36, 60, 84, or 120
PNUM	POS 1-3 = FOT or VEL
Contact	
INIT	Identifies the customer who originated the request
INITIATOR TEL	Telephone number of customer who originated the request
INIT EMAIL	Required. Identifies the electronic mail address of the initiator
DSGCON	Identifies the employee of the customer or agent who should be contacted on design/engineering/translation issues and to whom the Design Layout Report may be sent. Required when RTR is F or S
DSGCON TEL	Telephone number of employee of the customer or agent who should be contacted on design/engineering issues
IMP CON	Identifies the customer employee or office responsible installation and completion
IMP CON TEL	Identifies the telephone number of the implementation contact

Enduser Form	
NC	Refer to NC/NCI/SECNCI Job-aid : Frontier Wavelength
NCI	Refer to NC/NCI/SECNCI Job-aid : Frontier Wavelength
S25	A
SECNCI	Refer to NC/NCI/SECNCI Job-aid : Frontier Wavelength
SR	Refer to NC/NCI/SECNCI Job-aid : Frontier Wavelength Required
Primary Location Service	
PRILOC	E
CFA	Required if riding a higher-level facility

Frontier Wavelength – Establish REQ TYP ED, ACT N

Service Address Information (SALI) for Primary Location	
PI	Y
EUNAME	Identifies the end username associated with the Primary location
SANO	Address Number
SASF	Address Number Suffix
SASD	Street Directional Prefix
SASN	Street Name
LD1,2,3	Identifies additional information related to the service address. (e.g., building, floor, room)
LV1,2,3	Identifies the value associated with the Location Designator of the service address.
CITY	City
SATH	Street Type
SASS	Street Directional Suffix
STATE	State
ZIP CODE	Zip Code
JS	Indicates the access service is to terminate at a new or existing registered jack or DEMARC.
LCON	Local Contact
ACTEL	Local Contact Telephone Number

Frontier Wavelength – Establish REQ TYP ED, ACT N

Secondary Location Service	
SECLOC	E
CFA	Required if riding a higher-level facility
Service Address Location Information (SALI) for Secondary Location	
EUNAME	Identifies the end username associated with the Secondary location
SANO	Address Number
SASF	Address Number Suffix
SASD	Street Directional Prefix
SASN	Street Name
LD1,2,3	Identifies additional information related to the service address. (e.g., building, floor, room)
LV1,2,3	Identifies the value associated with the Location Designator of the service address.
CITY	City
SATH	Street Type
SASS	Street Directional Suffix
STATE	State
ZIP CODE	Zip Code
