

Carrier Customer Bulletin

Date: April 2, 2019
Notice #: CCBFTR01635
Audience: Carrier, IXC, CLEC
Subject: E-Path Expands to New Core POPs and High Capacity Central Offices
Effective Date: Immediately

Effective immediately, Frontier is expanding and upgrading several NNI locations with 1G and 10G capacity across our footprint to support our E-Path service. This comes from a significant investment in our network to prepare key locations with the capacity to handle our customers' network needs, before those needs arise. The table below includes the major NNI locations that have been added or upgraded and are ready to take orders. In addition to the 9 locations shown below, 9706 East Easter Ave. Englewood CO. 80112 will also be available in the near future.

STATE	ADDRESS
California	529 Bryant St., Palo Alto, CA 94301
California	900 North Alameda, Los Angeles, CA 90012
California	One Wilshire/624 S. Grand, Los Angeles, CA 90017
Florida	36 NE Second St., Miami, FL 33132
Georgia	56 Marietta St. NW, Atlanta, GA 30303
Illinois	350 E. Cermack Rd., Chicago, IL 60616
Oregon	Pittock Bldg., 921 SW Washington St., Portland, OR 97205
Texas	1950 Stemmons Fwy., Dallas, TX 75207
Virginia	21721 Filigree Ct., Ashburn, VA 20147

E-Path provides a single interconnect across multiple Frontier LATAs. It's a cost-effective and efficient method to extend WAN connectivity throughout our footprint. Our single OSS infrastructure allows customers to share one E-NNI across multiple Frontier LATAs when using our Ethernet service. This innovative approach provides greater integration for end users' regional or national WANs while saving time and resources by reducing the number of required interconnects. This service is available in all 29 states of our footprint.

If you have questions regarding the information provided in this notice, please contact your Frontier Account Manager or send us an email at wholesale_inquiry@ftr.com.

Note: Not all Frontier products and services are available in all markets.
