

Carrier Customer Bulletin

Date of Bulletin: August 2, 2019
Notice #: CCBFTR01677
Audience: IXC, CLEC
Subject: Overview Sessions Available for Upcoming EIA COMBO Ordering Process Change
Date Effective: 08/14/19 and 08/15/19

In anticipation of the new Combination Ordering Process (EVCI = B) for UNI and EVC Ethernet Internet Access (EIA) Services that will allow Frontier to assign the UNI and EVC on a single PON effective August 19, 2019, Frontier will host an overview session for Carriers. Frontier will provide two opportunities for Carrier customers to attend an overview session. Each overview session will provide Carrier customers with an in-depth review of the EIA COMBO Ordering Process and allow for Q&A.

Since this new ordering process will allow customers to order a UNI Circuit and EVC using Frontier’s NNI to carry the Ethernet Traffic on one ASR, negating the need for IP Request Forms for standard CIDR request for /28, /29 and /30, **Carrier personnel responsible for EIA ordering as well as the IP Request Form completion will benefit from the material to be presented during the overview session and are strongly encouraged to attend.**

No registration is required to attend one of the two available overview sessions. Please join the preferred session with the audio and webinar information provided below.

Overview Session 1	Overview Session 2
Date: Wednesday, August 14, 2019 Time: 10:00 a.m. - 12:00 p.m. Eastern Time	Date: Thursday, August 15, 2019 Time: 4:00 p.m. - 6:00 p.m. Eastern Time
