

Carrier Customer Bulletin

Date of Bulletin: August 12, 2019
Notice #: CCBFTR01682
Audience: IXC, CLEC
Subject: Availability of ASR Ethernet Combo Ordering (EVCI = B) for EIA
Date Effective: August 19, 2019

Frontier is pleased to introduce Combination Ordering (EVCI = B) for UNI and EVC Ethernet Internet Access (EIA) Services. The Combo ordering process will allow Frontier to assign the UNI and EVC on a single PON. Effective August 19, 2019, Frontier will implement Ethernet Internet Access (EIA) Combo Ordering (EVCI = B).

This new ordering process will allow:

- a) Customer to order a UNI Circuit and EVC using Frontier's NNI to carry the Ethernet Traffic on one ASR
- b) IP Request Form will no longer be needed for standard CIDR request for /28, /29 and /30
- c) Reduced cycle time utilizing one ASR for both the UNI and EVC
- d) Simplified ordering
- e) Frontier Custom Business Rules will continue to validate EIA Services for valid PNUM's
- f) Any change orders will need to be done on a Stand Alone EVC and or a Standalone UNI.

Frontier will publish an EIA Combo Ordering Job Aid on the [Access Reference Documents](#) page of the Frontier Wholesale Operations Website prior to the effective date. Frontier Access Custom Business Rules are also available from the Access Reference Documents page at: <https://wholesale.frontier.com/wholesale/access-services/access-reference-documents>.
