Revised Date: 4/8/2022

Access Standard Provisioning Intervals

Purpose

The purpose of this document is to provide the Standard Intervals for ordering of Special and Switched Access services. The intervals represent the minimum period between receipt by Frontier of an accurate and complete ASR from customer and provisioning of the Access service. If customer requests a service date that is earlier than the standard interval for the service set forth above, then customer shall be responsible for any charges or fees (including any Special Handling charges or expedite fees) assessed by Frontier in accordance with the applicable Tariff, contract or Frontier policy. These intervals are Frontier's guidelines that Frontier will attempt to meet on a consistent basis; however, Frontier makes no guaranty or warranty that the service will be provisioned in accordance with these intervals.

Access Standard Provisioning Intervals

Citizens and Rochester/WV/Frontier 13 and CTF
