## Blocking Notes for Port and Resale Services

1. The Valid Entry "1" is mutually exclusive to all other Valid Entries.
2. Valid Entries "A", "B" and "C" are mutually exclusive to each other.
3. In Verizon when the LNA field on the Port Service Form = "O", "T" or "B", only valid Entries "A", "B", "C" is allowed.
4. On a Post Migration request when the LCC is modified, the Blocking Activity value of "A" or "D" can be used to override the existing LCC value. When the Blocking Activity value of "E" is specified, all the Block values must be restated.
5. Only one occurrence of each Valid Entry may be populated.
6. All blocking and unblocking for features will be ordered by USOC in the FEATURE field.
7. Any blocking options not contained in the Blocking matrix will be ordered by USOC in the FEATURE field.
