						2. SUP 2 – New desired due date – Indicates that the pending order requires only a change of desired due date.;A request for a change in desired due date in conjunction with other changes to a pending order should be submitted with a "3" in the SUP field.When submitting a supplement to a request, a full refresh of the original LSR is required. Full refresh indicates that all unchanged information on the original request is included on the supplement along with a due date change.;A SUP 2 may be sent only after a Local Response (error or FOC) is received.;If a LR (Local Response) was sent on the preceding PON and VER, and the order has not been provisioned, then the SUP 2 is a valid request. ;If the order has been completed, the SUP 2 request will be rejected/errored back to the customer. ;A new LSR will be required to disconnect or change to any previously provisioned service(s).	
						3. SUP 2 – New Desired Due Date – The new due date is specified in the DDD field on the LSR. If the request is to establish a due date less than the due date already provided, the EXP field can be populated. The EXP field should not be populated on an original request unless the APPTRESID is populated. It should be used only on Supplemental orders (after a Local Response has been sent).	
						4. SUP 3 – Other- Any other change to the request.This may affect the previously agreed upon due date.;Partial cancellations should also be entered with a "3" in the SUP field. For example, removing 2 lines from an existing 5 line LSR.;A request for a change in desired due date in conjunction with other changes to a pending order should be submitted with a "3" in the SUP field.; If the request is to establish a due date less than the standard interval, the EXP field must be populated.;This entry is also to be used for supplements that are a result of provider changes.;When submitting a supplement to a request, a full refresh of the original LSR is required. Full refresh indicates that all unchanged information on the original request is included on the supplement along with changed information. REQTYP and CCNA changes on SUP are Prohibited.	
						5. SUP 3 – Other – Any other change to the request not defined by a SUP code 2, 4, 5, 6 or 7. This would include changes to the original request (i.e. PIC changes, IOSCs, TN etc), or if the change for a desired due date is in conjunction with other changes to the pending order. REQTYP and CCNA changes on SUP are Prohibited.	
						6. SUP 3 – Other – If the SUP field is populated with a 3 the remarks field must state what is changing on the LSR. In addition to the changed fields, the remainder of the request must be identical to the original request issued.	
						7. SUP 3 – Other – Use supplement 3 to resubmit a rejected PON with corrections.	
						8. A SUP 3 may not be sent to change the REQTYP or CCNA	
						9. SUP 4 – CLEC Facility Modification – Indicates the customer is requesting a change to the facility assignment(s) originally provided.If a LR (Local Response) was sent on the preceding PON, and the order has not been provisioned, then the SUP 4 is a valid request.
