

## ***Carrier Customer Bulletin***

Date of Bulletin: March 25, 2020  
Notice #: CCBFTR01778  
Audience: Carrier, IXC, CLEC, ISP  
Subject: UNI ASR Containing Titan PNUM - Address Validation via Access Services CVD  
Date Effective: 02/24/2020

---

Frontier Communications previously [introduced](#) the Access Services Contract Validation Database (CVD) that would validate contract effectiveness on incoming ASR transactions.

As a reminder, UNI ASRs (stand-alone or combo) containing a Titan PNUM will have an address validation performed via the Access Services CVD. For service to qualify for Titan rates, the address provided on the ASR must be an exact match to an address on the published **TLS Titan Site List**. This process was designed to help ensure ordering and billing accuracy.

The **TLS Titan Site List** is available from the [Access Reference Documents](#) page of the Frontier Wholesale Operations Website. Also available from this page, Frontier has published a new job aid titled "TLS Titan Address Validation Job Aid" to further assist customers with this new process.

If you have questions regarding the information provided in this notice, please contact your Frontier Account Manager.
