## UNI IN A COLLOCATION Process

The purpose of this document is to provide ordering guidance when ordering an EIA UNI that is collocated in a Frontier Central Office

**NOTE:** Serving Wire Center must match one of the CLLI codes in Collocation SWC List provided in a separate document

This document is intended to provide the NC, NCI, SECNCI and SPEC codes

1. Service must be ordered with an EIAV PNUM

### Special fields required

1. PSL field (located on the ASR Form)
  - a. This field must be populated with an 11 character Frontier Central Office SWC CLLI code from the Collocation SWC List
2. On the SALI Form
  - a. EU Name will be the Carrier Customer Name
  - b. Address will match the address located on the Collocation SWC List
3. AAI field (SALI Form)
  - a. AAI field must be populated with the Tie Down information
4. SPEC code on the ASR Form will be ETHACC2
5. NCON must equal Y
6. LAT/LONG is highly recommended

## How to Use the Collocations SWC List to populate the ASR fields

1. Locate the Central Office 11 character CLLI code where service is requested

| 11 character CLLI for PSL field | Central Office Carrier Hotel | LATITUDE  | LONGITUDE   | Address          | City        | STATE | ZIP_CODE |
|---------------------------------|------------------------------|-----------|-------------|------------------|-------------|-------|----------|
| DMBRCAXF86M                     | CorePop<br>Central Office    | 34.002054 | -117.814565 | 1041 S GRAND AVE | DIAMOND BAR | CA    | 91765    |

- Populate the 11 character CLLI code in the PSL field located on the ASR Form
- Populate the address fields in the SALI Section

**SERVICE ADDRESS INFORMATION** [Optional | Conditional]

PI: Y, EUNAME: ABC COMMUNICATIONS

**ADDRESS DETAIL** [Required] [Validate](#)

AFT: --Select--

SAPR: [ ]

SANO: 1041

SASF: [ ]

SASD: S

SASN: GRAND

SATH: AVE

SASS: --Select--

LD1: [ ] LV1: [ ] LD2: [ ] LV2: [ ] LD3: [ ] LV3: [ ]

CITY: DIAMOND BAR

STATE: CA

ZIP: 91765

- Populate the LAT/LONG fields

**LAT AND LONG** [Optional | Conditional]

LAT: 34.002054

LONG: -117.81456

## SPEC Codes, NC/NCI/SECNCI Codes and EVCNCI Codes for UNI in a Collocation

## EIA Combo Process

This document is intended as an aid to Frontier Customers for the purpose of ordering using the COMBO ordering process. This ordering process will allow:

1. The Wholesale Customer to order a UNI Circuit and EVC using Frontier's NNI to carry the Ethernet Traffic on one ASR
2. For Standard CIDR request (/28, /29 and /30, /64, and /128) the IP Request Form will no longer be needed
3. For Non Standard CIR
4. DR: /27 and above
  - a. PON will receive a C/NR
    - i. CONTACT ACCT MGR, SUPP REQD
    - ii. The Account Team will also be notified of the Non Standard IP Request and it will be necessary to work with that team
      1. *Non Standard IP Request* include static routing of net-blocks that are foreign to Frontier's network.
        - a. *Frontier Static Routing Policy* can be found here:  
<http://ipadmin.frontier.com/static.html>
    - iii. A SUP may or may not be required
3. Reduced cycle time utilizing one ASR for both the UNI and EVC
4. Simplified ordering
5. All change orders will need to be done on a Stand Alone EVC and or a Stand Alone UNI
6. Completion and FOC of the UNI and EVC on the same day

## VFO Service Type for COMBO

When creating a new Order Request

1. Select the End User Switched Ethernet EVC for COMBO Ordering

Order Initiation VFO - Internet Explorer provided by Frontier Communications  
http://vfo.frontier.com:13002/orderInitiation.do

**Order Initiation**

Order Number: COMBO-ACT-N  Tracking

Receiver Code: FV06 Frontier Telecom

| IMPCON TEL    | Example: Jane Smith   | N-Required<br>R-Optional   |

### SES FORM

#### Determine how many IP Addresses needed based on CIDR

How many IP Addresses do I need?

- a. What is my CIDR? (Classless Inter-Domain Routing) – this is a method for allocating IP addresses and IP routing)

Frontier will use the last 2 positions of the IP address field on the SES form to determine the CIDR requested

#### Based on the CIDR value and TOS value required, utilize the chart below to determine the IP Justification Usage

| CIDR Not used on the VFO Request | SES FORM |                 |                 | EVC FORM    |                 |     | ECI NAMES   |
|----------------------------------|----------|-----------------|-----------------|-------------|-----------------|-----|---|
|                                  | IPAI     | SUBNET          | IP ADDRESS      | TOS         | IP USAGE VALUES |     |   |
|                                  |          |                 |                 | WAN or FLAT | MIN             | MAX | Customer will only populate what is being requested   |
| /28                              | 4 or M   | 255.255.255.240 | 111.111.111.28  | 000000      | 7               | 14  | <b>VPN</b><br><br><b>FIREWALL</b><br><br><b>COMPUTERS</b><br><br><b>SERVERS</b><br><br><b>WEB HOSTING</b><br><br><b>VIRTUAL GAMING/TRAINING</b> |

| /29                              | 4 or M   | 255.255.255.248 | 111.111.111.29  | 000000      | 3               | 6   |   |
| /29                              | 4 or M   | 255.255.255.248 | 111.111.111.29  | 111111      | 2               | 5   |   |
| /30                              | 4 or M   | 255.255.255.252 | 111.111.111.30  | 000000      | 1               | 2   |   |
| /30                              | 4 or M   | 255.255.255.252 | 111.111.111.30  | 111111      | 1               | 1   |   |
| /64                              | 6        | Prohibited      | 111.111.111.64  | 111111      | Unlimited       |     | <b>These values must be populated exactly as listed here</b>  |
| /128                             | 6        | Prohibited      | 111.111.111.128 | 000000      | Unlimited       |     |   |

**How to populate the IP\_ADDRESS, IPAI and SUBNET\_MASK fields that are required on New Activity**

- **Standard Frontier CIDR values**
  - /28, /29 and /30 utilizing IPAI of 4 or M
  - /64 and /128 utilizing IPAI of 6

Submission of orders outside of the Standard CIDR will require the customer to work with their Sales Engineer to submit the DIA Extended IP Request Form

| CIDR Block | IPAI (IPV) | SUBNET_MASK     | IP_ADDRESS<br>For Ordering Purposes populate this field with corresponding<br>Actual IP Address will be returned after Completion notice |
|------------|------------|-----------------|--|
| /28        | 4 or M     | 255.255.255.240 | 111.111.111.28   |
| /29        | 4 or M     | 255.255.255.248 | 111.111.111.29   |
| /30        | 4 or M     | 255.255.255.252 | 111.111.111.30   |
| /64        | 6          | Prohibited      | 111.111.111.64   |
| /128       | 6          | Prohibited      | 111.111.111.128  |

**SES FORM**

Populate the following fields from the highlighted area in the chart above

| FIELD         | ENTRY  | ASR Activity               |
|---------------|--|----------------------------|
| NC/NCI/SECNCI | For UNI in a Collocation go to page 4 using the link below <a href="#">SPEC Codes, NC/NCI/SECNCI Codes and EVCNCI Codes for UNI in a Collocation</a> | N-Required<br>R-Required   |
| ESP           | Ethernet Service Point. Customer is permitted to populate the ESP field with a preferred or recommended Switch CLLI.                                 | N-Prohibited<br>R-Optional |

### SES FORM – Service Location Section

| FIELD       | ENTRY   | ASR Activity               |
|-------------|---|----------------------------|
| IPAI        | Use values in the above chart                                 | N-Required<br>R-Prohibited |
| SUBNET_MASK | Use values in the above chart                                 | N-Required<br>R-Prohibited |
| IP_ADDRESS  | Use values in the above chart<br>(Prohibited with /64 & /128) | N-Required<br>R-Prohibited |

### SES FORM – Service Address Information

| FIELD  | ENTRY   | ASR Activity   |
|--------|---|--|
| PI     | Y   | N-Required<br>R-Required   |
| EUNAME | This field must contain the Carrier Customer Name   | N-Required<br>R-Required   |
| SANO   | Use street number from the Collocation Serving Wire Center list   | N-Required<br>R-Required   |
| SASN   | Use street name from the Collocation Serving Wire Center list   | N-Required<br>R-Required   |
| SATH   | Example: LN, ST, RD, AVE<br>Address must match the address from the Collocation Serving Wire Center list  | N,R-Optional<br>When the SASN field is populated, otherwise prohibited |
| SASS   | Example:<br>E = East<br>N = North<br>NE = North East<br>SW = South West<br>Address must match the address from the Collocation Serving Wire Center list | N,R-Optional<br>When the SASN field is populated, otherwise prohibited |
| CITY   | Populate from the Collocation Serving Wire Center list  | N-Required<br>R-Required   |
| STATE  | Populate from the Collocation Serving Wire Center list  | N-Required<br>R-Required   |
| ZIP    | Populate from the Collocation Serving Wire Center list  | N-Required<br>R-Required   |
| LAT    | This data for this field can be found on the Collocated Serving Wire Center List. The field is optional but recommended                                 | N-Optional<br>R-Optional   |
| LONG   | This data for this field can be found on the Collocated Serving Wire Center List. The field is optional but recommended                                 | N-Optional<br>R-Optional   |
| NCON   | Y   | N-Required<br>R-Required   |
| AAI    | Field must be populated when ordering to a Frontier Central Office Serving Wire Center<br><b>Format: bay/panel/jack</b>                                 | N-Required<br>R-Required   |
| JS     | D   | N-Required<br>R-Prohibited   |

## ETHERNET INTERNET ACCESS (EIA) COMBO FOR UNI IN A COLLOCATION

| <b>FIELD</b> | <b>ENTRY</b>                | <b>ASR Activity</b>      |
|--------------|-----------------------------|--------------------------|
| LCON         | Example: John Smith         | N-Required<br>R-Required |
| ACTEL        | Example: 9999999999         | N-Required<br>R-Required |
| LCON_EMAIL   | Example: John.Smith@ftr.com | N-Required<br>R-Required |
| ALCON        | Example: John Smith         | N-Required<br>R-Required |
| ALCON_TEL    | Example: 9999999999         | N-Required<br>R-Required |
| ALCON_EMAIL  | Example:<br>DOMAIN@FTR.COM  | N-Required<br>R-Required |

## EVC FORM – Ethernet Virtual Connection

### Step 1: Justify the IP Usage values

Using the ECI NAMES & ECI VALUES located on the EVC Form

#### EVC FORM ECI Fields

- A section on the EVC Form will be used and will replace the IP Address Usage Section on the IP Request Form.
  - ECI\_NAME
  - ECI\_VALUE

#### Current IP Address Usage

Please provide the numbers detailing your current network in order to justify the requested IP Block.

Remember to include any ip count required for a FLAN LAN if choosing a FLAT LAN connection so the customer’s needs don’t get shorted.

|    |                           |                                |              |
|----|---------------------------|--------------------------------|--------------|
| 6e | VPN                       | <input type="text" value="0"/> | IP addresses |
| 6f | Firewall                  | <input type="text" value="0"/> | IP addresses |
| 6g | Computers                 | <input type="text" value="0"/> | IP addresses |
| 6h | Servers                   | <input type="text" value="0"/> | IP addresses |
| 6i | Web Hosting               | <input type="text" value="0"/> | IP addresses |
| 6j | Virtual Gaming/Training   | <input type="text" value="0"/> | IP addresses |
| 6k | DSL (explain count below) | <input type="text" value="0"/> | IP addresses |

**NOTE: Only use the ECI Fields located on the EVC FORM. From the EVC FORM you will need to scroll down to the first instance of the Company Specific Field at the CKT Level Section to locate the fields.**

- The Company Specific Field Section on the EVC Form will be used to justify the requested IP Block. This section will be required on the ASR
- On the EVC Form scroll past the last LREF to locate the COMPANY SPECIFIC FIELD Section. This section is used to justify the IP Usage. (Note: The ECI Section is the first instance of these fields. There is also an ECI Section at the bottom of the EVC Form. DO NOT USE THIS SECTION)
- Adding or Removing additional IP Blocks
  - ❖ Select the Add or Remove Section
  - ❖ The Number field can also be used to add or remove multiple sections

## ETHERNET INTERNET ACCESS (EIA) COMBO FOR UNI IN A COLLOCATION

| ASR   | SES | EVC | NAI | GEN. INFO |
|---|-----|-----|-----|-----------|
| COMPANY SPECIFIC FIELD [ 1 ] [Optional   Conditional] |     |     |     |           |
| ECI_NAME<br>VPN                                       |     |     |     |           |
| ECI_VALUE<br>2  |     |     |     |           |
| COMPANY SPECIFIC FIELD [ 2 ] [Optional   Conditional] |     |     |     |           |
| ECI_NAME<br>COMPUTERS                                 |     |     |     |           |
| ECI_VALUE<br>1  |     |     |     |           |
| COMPANY SPECIFIC FIELD [ 3 ] [Optional   Conditional] |     |     |     |           |
| ECI_NAME<br>VIRTUAL GAMING/TRAINING                   |     |     |     |           |
| ECI_VALUE<br>2  |     |     |     |           |

### **Step 2: Do I need WAN LAN or FLAT LAN?**

- WAN LAN – depending on the size of the block, Frontier will assign:
  - /30 LAN with a /30 WAN
  - /29 LAN with a /30 WAN
  - /28 LAN with a /30 WAN
- FLAT LAN IPs will always face Frontier and Frontier will assign:
  - A single /30 facing directly to Frontier
  - A single /29 facing directly to Frontier
  - A single /28 facing directly to Frontier.

Populate TOS field on the EVC Mapping based on values below

- TOS Values: 000000 = WAN LAN or 111111 = FLAT LAN

# ETHERNET INTERNET ACCESS (EIA) COMBO FOR UNI IN A COLLOCATION

## EXAMPLE:

Customer needs to order WAN LAN IP utilizing 3 VPN and 4 VIRTUAL GAMING/TRAINING . Using the data provided in the table below populate the fields on the ASR Request.

| CIDR<br>(Not used on the VFO Request) | SES FORM |                 |                 | EVC FORM |                 |     | ECI NAMES   |
|---------------------------------------|----------|-----------------|-----------------|----------|-----------------|-----|---|
|                                       | IPAI     | SUBNET          | IP ADDRESS      | TOS      | IP USAGE VALUES |     |   |
|                                       |          |                 |                 |          | MIN             | MAX | Customer will only populate what is being requested   |
| /28                                   | 4 or M   | 255.255.255.240 | 111.111.111.28  | 000000   | 7               | 14  | <b>VPN</b><br><br><b>FIREWALL</b><br><br><b>COMPUTERS</b><br><br><b>SERVERS</b><br><br><b>WEB HOSTING</b><br><br><b>VIRTUAL GAMING/TRAINING</b><br><br><b>These values must be populated exactly as listed here</b> |
| /28                                   | 4 or M   | 255.255.255.240 | 111.111.111.28  | 111111   | 6               | 13  |   |
| /29                                   | 4 or M   | 255.255.255.248 | 111.111.111.29  | 000000   | 3               | 6   |   |

| BDW   | Speed of UNI Circuit. Example '20M' (Must match UREF entry 1)<br>For ACT of R, BDW must be the speed of the current circuit                         | N-Required<br>R-Required     |
| TOS   | <b>Prohibited. Do not populate</b>  | N-Prohibited<br>R-Prohibited |

## Adding an Additional UREF 2 Section to the EVC Form

1. VFO will automatically add the UREF 01 Section. Complete the required fields for the section.
2. To Add the 2<sup>nd</sup> UREF, select the Add button.
3. Performing a Copy will duplicate this section to UREF 02. Be sure to change the data the applies to UREF 02.
4. Using the Remove Section will remove the UREF section entirely.

The screenshot shows the 'ETHERNET VIRTUAL CONNECTION UNI MAPPING DETAIL' form. At the top, there are navigation tabs: ASR, EVC (highlighted with a red box), MULTI-EC, and GEN. INFO. Below the tabs is a search bar labeled 'P\_MID'. The main form area has a title bar 'ETHERNET VIRTUAL CONNECTION UNI MAPPING DETAIL [Optional | Conditional]' and a control bar with 'Add: Copy: 1' (highlighted with a red box) and 'Section(s) Remove Section'. The form fields are organized as follows:

| UREF | EI         | AUNT       | UACT | RPON | NCI       |
|------|------------|------------|------|------|-----------|
| 01   | --Select-- | --Select-- | N    |      | 02VLN.UNT |

| EVCSP       | BUM_FD | RUID                | RL           | EVCMPID |
|-------------|--------|---------------------|--------------|---------|
| BRPTCTXJ0AW |        | FA/KQGN/999999//SN/ | x --Select-- |         |

| OTC | ASN | VPN_ACT    | VPN_ID | VPN_NM |
|-----|-----|------------|--------|--------|
|     |     | --Select-- |        |        |

## IP Address Usage Section EVC Form, ECI Fields

### EVC FORM – ECI Fields for IP Justification

#### FIELDS

- A New section on the EVC Form will be used and will replace the IP Address Usage Section on the IP Request Form.
  - ECI\_NAME
  - ECI\_VALUE

#### Valid Values for ECI NAME Field:

VPN, FIREWALL, COMPUTERS, SERVERS, WEB HOSTING, VIRTUAL and GAMING/TRAINING

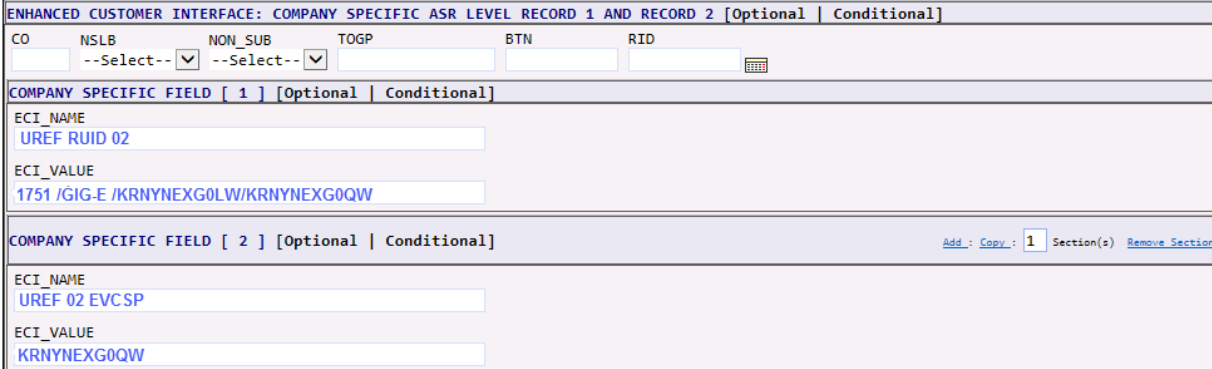

**Note:** These values must be entered in the field exactly as shown or an error will be displayed

| FIELD     | ENTRY   | FIELD DESCRIPTION  | ASR Activity Type |
|-----------|---|--|-------------------|
| ECI_NAME  | VPN<br><br>FIREWALL<br><br>COMPUTERS<br><br>SERVERS<br><br>WEB HOSTING<br><br>VIRTUAL GAMING/TRAINING | Used for IP Justification  | N – Required      |
| ECI_VALUE | 1 to 14 when ordering<br>Standard offerings   | The value is based on the<br>table below and is<br>dependent on the CIDR and<br>TOS values | N – Required      |

## Information Provided on the FOC

**Note:** The change on the Confirmation Notice for Combo ordering will be the addition of the UREF 02 ECCKT and EVCSP. The information provided in the FOC will be used on any future ASR Activity

|    |  |
|----|--|
| 1. | <p>The New UNI ECCKT for UREF 01/RUID will be provided on REFNUM 0001</p>    |
| 2. | <p>The Frontier NNI ECCKT UREF 02/RUID will be provided on the ECI_NAME and ECI_VALUE<br/>The EVCSP will be provided on the ECI Name and ECI Value</p>  |
| 3. | <p>The ESP (Ethernet Switch CLLI). This is the EVCSP associated with RUID 01</p>   |
| 4. | <p>The New EVC ECCKT</p>   |

## IP Information – Informational C/NR before ASR completion

- An informational C/NR will be sent before Completion of the ASR. The following information will be provided in the Remarks field of the C/NR:
  - LAN IP (IP INFO sent via separate email when IPAI equals M)
  - WAN IP
  - GATEWAY
  - SUBNET
  - FTR (Frontier IP Address)
  - CXR (Customer IP)

NOTE: The Primary and Secondary DNS will be added to the Information C/NR with a future release.

The values will always be:

Primary-DNS = 74.40.74.40

Secondary-DNS = 74.40.74.41

### Example #1 – (IPAI = M)

LAN IP: IP INFO Sent via separate email; WAN IP: 50.122.62.160/30; GATEWAY: 50.122.62.161; SUBNET: 255.255.255.252; FTR: 50.122.62.161; CXR: 50.122.62.162;

### Example #2 – (IPAI = 4 or 6)

LAN IP: 192.182.73.128/27; WAN IP: 50.122.62.160/30; GATEWAY: 50.122.62.161; SUBNET: 255.255.255.252; FTR: N/A; CXR: 50.122.62.162;

The Information C/NR can be found on the History Tab in VFO

From the ASR History Page, double click the PON to the left of Clarification Remarks. The PON is TEST in this example

| RECEIVER CODE | ACT | PON | OWNER | DTSENT                       | View XML  |
|---------------|-----|-----|-------|------------------------------|---|
| TEST          | 01  | SD  | SN01  | Completed                    | METROS_ADMIN 07/01/2019 10:32 auto <a href="#">View XML</a> |
| <b>TEST</b>   | 01  | SD  | SN01  | <b>Clarification Remarks</b> | METROS_ADMIN 07/01/2019 10:31 auto <a href="#">View XML</a> |
| TEST          | 01  | SD  | SN01  | Confirmed                    | METROS_ADMIN 06/25/2019 16:04 auto <a href="#">View XML</a> |

This will take you to the ASR Response – Clarification Remarks Page  
REMARKS

IP INFO: LAN IP: 104.229.33.177/28 WAN IP: 32.225.6.136/30 GATEWAY: 104.223.33.176 FTR: 32.223.4.137  
CXR: 32.224.6.137

**NOTE:** An informational E-mail will be sent from HostmasterFrontiernet.net with the assigned IP address. It is not necessary to add this to the existing PON. All IP information will be sent on the informational C/NR.

## Change Log

| Date      | Page Number | Change               |
