Network Changes and Trunk Rearrangements:

The New Haven, CT PEO switch will be the recipient office of traffic migrated from the Norwalk North, CT 5ESS host switch. Traffic bound for the codes listed in Table B will be delivered via the New Haven, CT Tandem (NWHNCT0206T) Intra-Lata SHA/ (NWHNCT0206T) inter-Lata FG Access SHA).

After all traffic is migrated off the Norwalk North, CT 5ESS host switch, it will be retired and removed from the network.

Description of Reasonably Foreseeable Impact of the Planned Changes (cont.):

CLECs, IXCs, IECs, wireless carriers and paging carriers will need to secure new trunk groups built to the New Haven, CT tandem or have existing trunk groups to that switch augmented. Carriers that have direct end office trunks (DEOT) with access connectivity in the Norwalk North, CT 5ESS switch will be required to reposition the codes to the NWHNCT0206T Tandem switch.

All ASRs (Access Service Requests) for the New Haven, CT (NWHNCT0206T) Tandem switch must be received no later than February 1, 2025, to provide sufficient time to migrate the traffic described above. All traffic must be moved by March 1, 2025. All ASRs for the New Haven, CT (NWHNCT0206T) Tandem switch must carry the project code of **NRWLCT03DS0**.

Please adhere to industry standards using normal procedures that pertain to updates and changes to the LERG for all NXXs subject to the retirement of the Norwalk North, CT 5ESS switch.
