Advice No. 20

Mr. Cayce Hinton, Director
Office of Industry Development & Market Analysis
Florida Public Service Commission
2540 Shumard Oak Boulevard
Tallahassee, Florida 32399-0850

Dear Mr. Hinton:

Enclosed please find the revised tariff page to Frontier Florida LLC, Facilities for Intrastate Access Tariff, issued December 23, 2025, to become effective January 1, 2026, subject to the Public Service Commission approval, as follows:

Section 6

9th Revised Page 37
9th Revised Page 38
4th Revised Page 39
9th Revised Page 40
9th Revised Page 41
9th Revised Page 42
9th Revised Page 44
10th Revised Page 45
9th Revised Page 47
9th Revised Page 48

Section 107

2nd Revised Page 1

The purpose of this filing is to increase Voiceband Facilities, Digital Data Service Facilities, Multiplexing Arrangements, High Capacity Digital DS1, DS3 High Capacity Service, and Clear Channel Capability rates.

If you have a question regarding this filing, please contact me at 585.777.7572 or at Teresa.M.Ali@ftr.com.

Sincerely,

/s/ Teresa M. Ali

6. DEDICATED ACCESS SERVICES

6.8 Miscellaneous Dedicated Access Services

6.8.1 Clear Channel Capability

(A) Description of Service

An arrangement that allows the customer to transport 1.536 Mbps of information through a DS1 with no constraint on the quantity or sequence of one (mark) and zero (space) bits utilizing the Bipolar with Eight Zero Substitution (B8ZS) method of providing bit sequence independence. This arrangement is capable of transporting DS1 signals which utilize Superframe or Extended Superframe Format (ESF) as defined by the American National Standards Institute (ANSI) T1.107-1988 standard. The installation interval for Clear Channel Capability may exceed standard intervals where equipment in the central office is not readily available. The charges apply on a per Local Channel basis.

This arrangement requires the customer signal at the channel interface to conform to the B8ZS method of providing bit sequence independence.

The DS1 Special Access Line provided under this tariff will not be billed when used with Integrated Services Digital Network (ISDN) Primary Rate Interface (PRI) that uses alternate higher capacity digital facilities for the loop transport. This includes, i.e., providing service under the Tariff FCC No. 14, Optical Networking when the optical node is at the same location, DS3s, or comparable local tariffs and special assemblies. A DS1 Special Access Line provided to the serving wire center at which the customer obtains ISDN PRI Service will be transmitted with B8ZS Clear Channel Capability per Technical Reference Publication GR-342, Issue 1.

(B) Rates

	<u>Monthly Rate</u>	<u>Nonrecurring Charge</u>
(1) Clear Channel Capability	\$1,632.49 (I)	\$92.00

6.9 Dedicated Access Cross Connect Rates and Charges

	<u>Monthly Rate</u>
Per DS0 Connection	\$1.60
Per DS1 Connection	4.00
Per DS3 Connection	31.00

**107. OBSOLETE SERVICE OFFERINGS -
DEDICATED ACCESS SERVICES**

107.1 General

Service offerings listed herein are classified as discontinued and will apply to existing customers only, unless stated otherwise.

Unless otherwise specified in this Section 107, discontinued services are furnished subject to all the rules and regulations of the tariff the same as would be applicable if the service offering were not discontinued.

107.2 Supplemental Features

107.2.1 Alarm Distribution Bridging

Provides polling type bridging capabilities, band splitting filters and conversion of four-wire common terminations up to a capacity of 40 two-wire terminations. This function is offered as two tariff elements. The first element provides all shelving and common equipment for a capacity of 40 two-wire terminations. The second element provides a two-wire port. One common equipment rate element will apply to accommodate up to 40 two-wire terminations. One two-wire port charge will apply to each two-wire Dedicated Access Line terminated in the bridge.

¹

107.3 Rates and Charges

107.3.1 Voiceband Facilities

(A) Optional Arrangements

(1.) Bridging - Alarm Distribution Bridging-Split Band Active Bridging

a. Central Office Common Equipment

	<u>Monthly Rate</u>	<u>Nonrecurring Charge</u>
Bridging Shelf, capacity of 48 two-wire connections	66.00	160.00

b. Channel Connection, per Channel Connected

Remote station channel connection	1.50	40.00
Mid-link channel connection, first channel (deleted)	6.00	50.00

(2.) Supplemental Features - Dataphone Select-a-Station Bridging

a. Each Two-Wire Port	73.13 (I)	60.00
b. Each Four-Wire Port	26.00	60.00

¹ Program Audio Bridging is withdrawn as of December 19, 2013.
