Date of Bulletin:	June 10, 2022
Notice #:	CCBFTR02028
Audience:	Bonded Wholesale Customers (UOM, EDI, tML)
Subject:	New Frontier Exchange Path Security Certificate (SHA2) – Bonded Customer Action Required *Second Notice
Date Effective:	Test Environment: 06/10/2022 Production Environment: 06/26/2022

This is a reminder that the existing Frontier Exchange Path (EP) Security Certificate (SHA2) expires on July 3, 2022. Bonded customers must act.

The Frontier endpoints impacted by this change include:
- ep.frontier.com (50.121.73.12) – Production
- epclec.frontier.com (50.121.73.10) - Test

Virtual Front Office (VFO) users are not impacted by this change.

Requesting the New Frontier Public EP Security Certificate
To avoid connectivity failures, impacted bonded customers must request the new Frontier Public EP Security Certificate, for test and production, by contacting the Frontier Connectivity Management team at:
Frontier.Connectivity.Management@ftr.com.

Test Environments
Frontier will sunset the current Frontier EP Security Certificate today at 11:00 Eastern Time. Effective 12:00 Eastern today, the new Frontier EP Security Certificate will be in effect for the test environment.

A test window will open on Monday, June 13, 2022, and will be available until 17:00 Eastern Time on Friday, June 24, 2022. To schedule a connectivity test of the new EP Security Certificate with the Frontier Certification Team, please email:
- Frontier.ASR.Certification@ftr.com – For ASR/TA transactions
- FTRCarrierCertification@ftr.com – For LSR/TA transactions

Production Environments
Effective at 14:00 Eastern Time on Sunday, June 26, 2022, Frontier will sunset the current Frontier EP Security Certificate and begin the implementation of the new Frontier EP Security Certificate.

Effective 16:00 Eastern Time on Sunday, June 26, 2022, bonded customers must have the new Frontier EP Security Certificate installed, to avoid connectivity failures. All ASR, LSR and TA transactions submitted as UOM, EDI and tML to Frontier Exchange Path Production (ep.frontier.com 50.121.73.12) after 16:00 Eastern Time on June 26, 2022, must utilize the new Frontier EP Security Certificate.

Frontier will implement the new Frontier EP Security Certificate for the production environment during a scheduled maintenance window exception.

If you have questions regarding the information provided in this notice, please send your emails to Frontier.Connectivity.Management@ftr.com.
