**Description of Network Changes Planned:**

**FRONTIER COMM OF TEXAS** – announces that it intends to retire and remove its GTD5 switch from the wire center listed below:

Wire Center	Address	CLLI
Huffman, TX	24207 FM 2100, 77336	HFMNTXXADSO

On or after December 5, 2025, the Huffman, TX GTD5 switch will be retired and removed from the Frontier network as part of ongoing efforts to modernize the network.

The Exchange Codes (NXX) in Numbering Plan Area (NPA) 281 currently residing in the HFMNTXXADSO GTD5 switch and associated remote (see list in Table B below) will be moved to the DCSNTXXAPS0 PEO virtual switch (see details in Table A below).

**Description of Reasonably Foreseeable Impact of the Planned Changes:**

The native NPA NXX belonging to the Huffman, TX GTD5 switch will be rehomed upon decommissioning of the switch and reflected in the Local Exchange Routing Guide (LERG) for the Dickinson, TX PEO switch. This will occur on or after December 5, 2025.

**Network Changes and Trunk Rearrangements:**

The Dickinson, TX PEO switch will be the recipient office of traffic migrated from the Huffman, TX GTD5 switch. Traffic bound for the codes listed in Table B will be delivered via the Dickinson, TX Tandem (DCSNTXXA01T Intra-Lata SHA/DCSNTXXA01T inter-Lata FG Access SHA).

After all traffic is migrated off the Huffman, TX switch, it will be retired and removed from the network.

**Description of Reasonably Foreseeable Impact of the Planned Changes (cont.):**

CLECs, IXCs, IECs, wireless carriers and paging carriers will need to secure new trunk groups built to the Dickinson, TX Tandem or have existing trunk groups to that switch augmented. Carriers that have direct end office trunks (DEOT) with access connectivity in the Huffman, TX GTD5 switch, and remotes will be required to reposition the codes to the Dickinson Tandem switch.

All ASRs (Access Service Requests) for the Dickinson Tandem switch must be received no later than November 7, 2025, to provide sufficient time to migrate the traffic described above. All traffic must be moved by November 21, 2024. All ASRs for the Dickinson Tandem switch must carry the project code of HFMNTXXADS0.

Please adhere to industry standards using normal procedures that pertain to updates and changes to the LERG for all NXXs subject to the retirement of the Huffman, TX GTD5 switch.
