After all traffic is migrated off the Atmore AL 02T Tandem switch, this switch will be retired and removed from the network.

CLECs, IXCs, IECs, wireless carriers and paging carriers will need new trunk groups built to the AT&T Mobile AL 0GT Tandem switch or have existing trunk groups to that switch augmented. Carriers that are code holders with connectivity in the Atmore AL 02T Tandem switch will be required to reposition the codes to the AT&T Mobile AL 0GT Tandem switch.

All ASRs for the AT&T Mobile AL 0GT Tandem switch must be received no later than August 1, 2026 to provide sufficient time to migrate the traffic described above. **All traffic must be moved by October 12, 2026.**
